READY TEDDY GO!

Co-funded by the European Union

Erasmus+ KA2 Project

TRAINING COURSE

The second intellectual output (IO) aims at the professional development and update of SEN teachers, social workers, parents of students with disabilities, and SEN specialists, through online courses. The modules in this course are:

- Augmentative alternative communication systems,
- Tools and resources for social competences and skills,
- Tips and pitfalls of integrating SEN children in mainstream schools,
- The role of parents in the development of social skills

The goal of this course is to fill in the gaps and provide solutions, best practices, products, tools, toys, etc., thus addressing in this way the lack of empowerment when referring to social development skills, communication skills, and poor interaction between classmates in an inclusive, educational environment. Additionally, a detailed analysis for the needs and realistic concerns of teachers and parents is included in the course. Free and full access will be provided to all the target groups and stakeholders.

E-PLATFORM

The RTG project's fourth intellectual output (IO) provides a number of resources, tools and an online training course addressed to different target groups, who could benefit from the project. On the e-platform you will find:

1. E-compendium - a list of already existing solutions and practices boosting SEN children's social competences and ability to learn,

2. Online training course for teachers/educators aimed at summing up conclusions from e-compendium,

3. Downloadable mobile app-based TEDDY Avatar together with the manual responding to the diagnosed learning/ teaching needs

TRANSNATIONAL PROJECT MEETING

4th Project Meeting – Nicosia

We are excited to announce that the recent TPM was successfully held in the beautiful city of Nicosia, Cyprus, on the 5th and 6th of June 2023 and hosted by Emphasys. During this productive gathering, the partners of the consortium were engaged in fruitful discussions regarding the overall progress of the RTG project. During the meeting proceedings, On the development of the innovative Teddy Avatar application and the functionality of the TEDDY Avatar, its form of presentation and the possible implementation scenarios and on the evolution of our e-platform. With everyone's dedication and commitment, we are confident in achieving our goals and delivering exceptional results.

.

OUR FURTHER STEPS

Teddy Avatar

Our groundbreaking Teddy Avatar application is an interactive virtual teacher aid. This adorable Teddy can count, display body parts, and perform a variety of tasks such as fetching and reading a book, making the bed, enjoying breakfast and much more. While finalizing the educational scenarios, we're also creating a multimedia guidebook to support their implementation in the classroom. Stay tuned for the completion of the exciting RTG project!
